

PRESSURE SWITCH

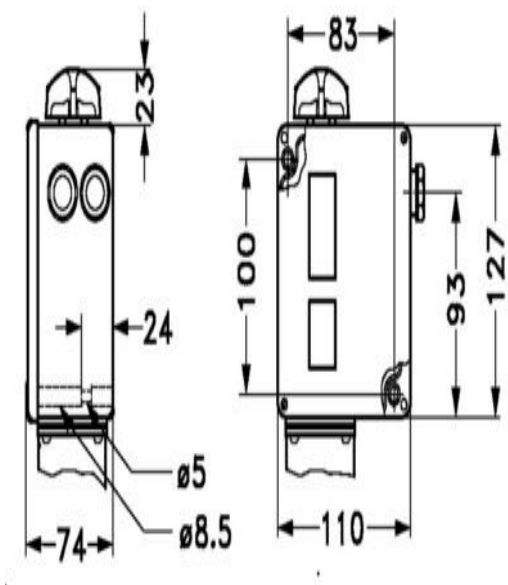

Material plastic / brass / stainless steel
Pressure PN 16

TECHNICAL DESCRIPTION

Pressure switch (pressure switch). Principle of operation
– controls the pressure in the system, according to a
preset value.
Performs the function of a controlling or alarm device in
the system.

WORKING MEDIUM / FLUID
Oils, air, gas, water, etc.

EXECUTION
According to the size chart.

			SPECIFICATION	
No.	DETAILS	MATERIALS	Standard	DIN
1	Body / casing	PVC box	T max. of the medium	70 °C
2	Interior details	carbon steel	T min. of the middle	-10 °C
		brass / copper	Net weight	0.88 kg
			Adjustable range	according to the model

PRESSURE SWITCH

Material plastic / brass / stainless steel

Pressure PN 16

SIZE	MODEL	ADJUSTMENT RANGE (Bars)	IP
3/8"	RT 113	0 ÷ 3.0	66
3/8"	RT 112	0.1 ÷ 1.1	66
3/8"	RT 200	0.2 ÷ 6.0	66
3/8"	RT 116	1.0 ÷ 10.0	66
3/8"	RT 5	4.0 ÷ 17.0	66
